

Caractéristiques F					
Charge	Installation	Rp-Cp	Rs	Fusible	
Résistive ou peu selfique	Non protégé contre surcharge et court-circuit				
Surcharge importante et court-circuit possible	Protégé contre surcharge > 20A et court-circuit		x	x	
Fortement inductive	Protégé contre les transitoires	x			
Spécification inconnues	Totallement protégé	x	x	x	

x = Protection requise

Spécifikationer DK					
Belastning	Installation	Rp-Cp	Rs	Fuse	
De fleste ohmske og små induktive	Ubeskyttet mod stødstrøm og kortslutning				
Alle med store startstrømme og hvor belastningen kan kortslutte eller kortsluttes	Beskyttet mod stødstrøm > 20A og kortslutning		x	x	
Store induktive, der pga. selvinduktionen kan gentænde føleren	Slukning af store induktive belastninger, transientbeskyttende	x			
Ukendte, hvor max. spec. fra data-bladet ikke overskrides	Værste fald, alle beskyttelser	x	x	x	

x = Protection requise

Ualim. (RMS)	Inom. (RMS)	Rp	CP	( Ualim.) Rs= 20A	Fusible
90-124V		Film de carbone	Couche métallique	Bobinée

## Specifications

### UK

Load:	Installation	Rp-Cp	Rs	Fuse
Most ohmic and small inductive	Protection against surge current and short circuit not required			
At large surge currents, and where the load can (be) short-circuited.	Protected against short circuit and surge current >20A		x	x
Large inductive loads (may reactivate the sensor)	Interrupting large inductive loads, transient protecting	x		
Unknown loads within rated specifications	Worst case: all protections	x	x	x

x = Protection needed

## Daten

### D

Last	Anschluss	Rp-Cp	Rs	Sicherung
Die meisten ohmschen und kleinen induktiven Lasten	Schutz gegen Stromstoss und Kurzschluss nicht erforderlich			
Bei grossen Stromstossen und kurzgeschlossener Last	Schützen gegen Kurzschluss und Stromstoss > 20A		x	x
Grosses induktive Lasten können den Sensor reaktivieren	Unterbrechen grosser induktiver Lasten, Transientenschutz	x		
Unbekannte Lasten innerhalb festgelegter Daten	Im schlimmsten Fall alle Schutzen	x	x	x

x = Zusätzlicher Schutz erforderlich
